

# COMPANY PROFILE

**GAMMA ENERGY INDONESIA**

# Vision

*To be your partner in Non-Destructive Testing business*

# Mission

*To be actively involved in improving the world of Non Destructive Testing through the development of technology.*

# About Us

*PT. Gamma Energy Indonesia is a privately owned company that focuses on Non-Destructive Test equipment and accessories. It was established in 2014 in Tangerang , Indonesia and currently located at Jl. Kodam Bintaro Raya No. 18A, Jakarta Selatan. Its stakeholders have more than 30 years of experiences in the business for various applications such as quality control, production process, environment and safety.*

*We prioritize in providing the most economical value to our customer's technical matter, all supported with our expert trained-engineers as well as ours principals. We continuously challenged our team to supply our customers with the current benchmark technologies.*

# Our Product

Rigaku offers a powerful lineup of microcomputerized industrial X-ray systems for NDT inspections. What is indispensable for heavy-duty radiographic operation in the field are excellent operational productivity and durability. The Radioflex series exactly meets these needs.

With the SENTINEL™ Vision HR digital radiography system you get state-of-the-art imaging quality in a portable, durable and affordable package. Specifically designed for inspections both in the field and in the lab, SENTINEL™ Vision HR is a computed radiography system that uses flexible phosphor imaging plates instead of film to create high resolution images

Zetec MIZ-200 eddy current instrument can handle the most demanding environments with ease. Offered in both tubing and surface array configurations, MIZ-200 is ideal for applications within Balance-of-Plant/Power Generation, Transportation and Oil and Gas markets.

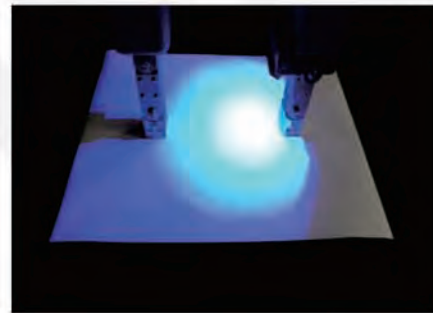

Zetec TOPAZ 16 & 32 is a fully integrated, high-performance phased array UT devices — a complete solution for your inspections. Optimally designed for Oil & Gas, Power Generation, Manufacturing and Transportation applications, TOPAZ 16 & 32 boost productivity, reduces job time duration and can lower total cost of ownership.
